

AEL Dynaform® Ankle & Foot Positioners

AEL's Dynaform Ankle Positioners allow the foot to flex and rotate by utilizing only an ankle strap. Choose between the standard 3-Point Ankle Positioners (foot base included) or the new economical 2-Point Ankle Positioner Straps. Keep the feet protected on the footplates without the restrained feeling of a rigid shoe holder. Each style includes comfortable, adjustable Neoprene-padded straps.

Hook & Loop Closure

Dynaform® 2-Point Ankle Positioners

The 2-point ankle attachment includes 2 side straps that wrap around the ankle and mount to an existing footplate or base on the wheelchair. Each set includes 2 Ankle Straps (1 pair). Choose from a contoured side-release buckle closure or a hook & loop closure.
