

airLOGIC™ DUAL-PULL STRAP KIT

Rear-Pull, Front-Pull, & Dual-Pull on 1 Support

Convert your *front-pull* AirLogic Anterior Trunk Support to *rear-pull* or *dual-pull* with the AirLogic Dual-Pull Strap Kit

- Rear-pull strap addition
- Adds 6" in length to the top straps, providing the option to move the buckles away from the pad – so that they sit behind the back

FREE with the purchase of an AirLogic Anterior Trunk Support

Add **part # 14844** to your next order

Versatility to Accommodate More Positioning Needs

Option 1: Dual-Pull

Rear-Pull + Front-Pull

Simply replace the standard top straps with the Dual-Pull Strap Kit

Option 2: Rear-Pull

Rear-Pull Only, Eliminating Front-Pull

Step 1 Replace the standard top straps with the AirLogic Dual-Pull Strap Kit

Step 2 Pull the Front-Pull straps up so that the D-Rings sit next to the webbing loops

Option 3: Position Buckles Behind the Back

Position Top Buckles 6" From the Pad

Step 1 Replace the standard top straps with the AirLogic Dual-Pull Strap Kit

Step 2 Pull the Front-Pull D-Rings through the webbing loops

Step 3 Move the D-Rings up so that they sit next to the Side Release Buckles

Use the Rear-Pull straps for adjustment
